

EPPS 6302 Methods of Data Collection and Production: Assignment 1

Create a Quarto Website

Instructor: Karl Ho

Fall 2026

What you will build

A personal website built with Quarto and RStudio, published on GitHub, carrying your CV and a one-page note on the design choices you made. Send the URL to the teaching assistant when it is live.

1. Setting up

- a. Read the “Build Your Own Website” handout.
Suggested steps:
 - i. Install Quarto in R.
 - In the RStudio console: `install.packages("quarto")`
 - In the RStudio terminal: `quarto install`
 - ii. Create a New Project → New Directory → Quarto Website.
 - iii. RStudio tutorial, with video — <https://quarto.org/docs/get-started/hello/rstudio.html>

2. Note

a. Sample `_quarto.yml`:

```
project:
  type: website
website:
  title: "Karl Ho"
  navbar:
    left:
      - href: index.qmd
        text: Home
      - about.qmd
      - text: Assignments
        menu:
          - assign01.qmd
          - assign02.qmd
format:
  html:
    theme: cosmo
    css: styles.css
    toc: true
  editor: visual
```

3. Curriculum vitae

- a. Include your updated CV/résumé on your navigation bar.

4. Write a one-page note on designing your website

- a. For example: “*This website is created using RStudio Quarto. The xxx theme is used for a professional look. The navigation bar includes nnnn links connecting to the author’s content in different areas.*”
- b. Post it under **Assignment 1**, in the Assignments menu on the navigation bar.

5. Submit

- a. Once done, send your website URL to the teaching assistant.

Subject line: Your name website — e.g. *John Doe website*.

URL form: karlho.github.io, johndoe11.github.io — where karlho and johndoe11 are the GitHub login usernames.
